

Barkley Rhoat

Technologies & Languages

HTML, CSS, JavaScript, React.js, JQuery, Bootstrap, MaterialUI, PWAs, Typescript, Figma
Python, Flask, Express.js, PlaywrightAPI Design, AJAX, JSON, GraphQL, SQL, MySQL, MongoDB,
PostgreSQL, Git, GitHub, BitBucket, Heroku, Render, Visual Studio, Sublime Merge, Tableau,
Sentry, Splunk

EXPERIENCE

Power Home Remodeling, Chester, PA — *Software Quality Assurance*

November 2024 - Current

- Design and implement end-to-end automated test suites using playwright, improving test coverage and reducing regression testing time.
- Conduct thorough manual testing and code reviews to identify defects pre-release, ensuring high quality deliverables and reducing production bugs.
- Actively contribute to agile ceremonies (sprint planning, retrospectives, stand-ups) to enhance cross-functional collaboration and maintain alignment on quality standards and testing workflows.
- Monitor application health using Sentry and Splunk to debug production issues, document troubleshooting workflows, and collaborate with engineering teams to resolve defects efficiently.

Harmelin Media, Bala Cynwyd, PA — *Software Engineer Intern*

July 2024- November 2024

- Leverage React.js and Material-UI to develop responsive front-end user interfaces to streamline company processes and meet end-user needs and requirements.
- Develop and expand backend architecture using Flask framework with implementation of PostgreSQL and MongoDB
- Participate in software development cycles, including user sessions, version development, code reviews, developer and user testing.

EDUCATION

UPenn LPS Certificate — *Full Stack Web Development*

September 2023 - March 2024, Online

Completed a comprehensive program focused on modern web development technologies and frameworks.

Indiana University of Pennsylvania — *Journalism & Public Relation*

August 2013 - May 2018, Indiana, PA
